

RealWorld-InWorld (RWIWN) NASA Engineering Design Challenge – James Webb Space Telescope – **InWorld Champion**

Earning this badge reflects:

1. Exemplary teamwork.
2. Exemplary presentation skills and interactions during a synchronous Q&A session with the Evaluation Team.
3. Proficient use of 3D modeling tools to design and develop either the sunshield or mirror assembly for the James Webb Space Telescope.

Related Activities:

You may also want to step into the role of an explorer in **Moonbase Alpha**, a 3-D immersive NASA exploration game: <http://goo.gl/jKaE>

Apply your engineering skills to protect astronauts in the **NASA Exploration Design Challenge**:
